## WORK EXPERIENCE

### Web Developer – BAOIAM Innovative pvt/ltd Internship, - April 2023 - Present

- Working on technologies like Html, CSS and JavaScript.
- Worked with the team on a Cosmetic E-Commerce website and developed the user interface.
- Developed front-end of Wishlist page of an e-commerce website where users can find the product which they marked like.
- Developed Blog Page page to give information of the product to users and detailed blog page for specific blog to clear users doubt to give a better UX.
- Participated on weakly Tech team meeting to discuss current and future projects and strategies how to produce efficient work

## PROJECTS

### AMAZON CLONE, E-Commerce — MERN Stack Project

- Used MERN Stack(MongoDb, Express.js, React.js, Node.js ) technologies to build this project.
- Developed Authentication System with Express and MongoDB database to allow users to create an account and login an existing account.
- Initialized JWT token and storing it in the cookies to giving specific data to specific user
- Created APIs to show products on home page ,to show particular item , to add items in cart , to delete item from the cart section .Used GET , POST, DELETE Http Request.
- Responsive for all types of devices. Looking forward to creating more functionality .
